Signature* of Examining Health Care Provider: _____

(*Stamp is NOT acceptable in place of signature) Date: _____

Stamp, copy of letterhead, or business card may be used for the following required information:

Print or type name

Office or Agency

Address

Telephone number

STUDENT: Please retain a copy of this document for your records.

UPPER CAPE COD REGIONAL TECHNICAL SCHOOL
PRACTICAL NURSING PROGRAM

TITER and IMMUNIZATION REQUIREMENTS

Health Care Provider: The following titers and immunizations are required for admission. NO EXCEPTION will be made. Dates of immunizations and/or documentation of disease DOES NOT meet the requirement for TITERS.

In accordance with the regulatory requirements of the Massachusetts Board of Registration in Nursing, the candidate for admission (*the applicant*) must provide satisfactory evidence of compliance with the immunization requirements specified by the Massachusetts Department of Public Health (ref: 244 CMR 6.04(3)(a)1) for Health Care Personnel [Reviewed August 2021] and found at: <https://www.mass.gov/doc/adult-occupational-immunizations-massachusetts-recommendations-and-requirements/download> and Massachusetts DPH Immunization of Students Before Admission to School (ref: 105 CMR 220.000)/

Certain clinical agencies have immunization requirements that exceed those of the MA Department of Public Health and as a result the Program cannot make any exceptions. Failure to provide all required documentation may exclude the PN student from clinical practice and participation in the Program.

- **Hepatitis B, Measles, Mumps, Rubella, and Varicella [Required for admission]**
A lab report (on lab letterhead and obtained from the lab performing the test, NOT documentation from a medical record) that documents that the student has sufficient antibody protection against Hepatitis B, measles, mumps, rubella, and varicella. Dates of immunizations, without these titers, will not be accepted.
- **Tdap/TD [Required for admission]**
Documentation of ADULT pertussis-containing vaccine within 10 years of time of application to the Program. If the 10 year duration of the vaccine will lapse at any time during Program enrollment, the applicant is required to receive the immunization prior to admission to the program.
- **Meningoccal (MenACWY) [Required for admission]**
ONLY those applicants that are 21 years of age or younger and given on or after the applicant's 16th birthday.
- **Tuberculosis Screening [Required to attend clinical]**
A tuberculosis test is required within 2 months of the start of the Program. In accordance with the policy of the MA DPH Tuberculosis Program, a history of BCG immunization does not exempt the student from TB screening requirement. A negative chest X-Ray and clinical evaluation is required for those with a history of positive PPD.
- **Influenza Vaccination [Required to attend clinical]**
Mandatory influenza vaccination is required by all clinical facilities. The flu vaccine is due annually on or before October 15th.
- **COVID Vaccination [Required to attend clinical]**
Specific details will be provided in accordance with state, regulatory, and clinical agency requirements.

Acceptance to the Program is contingent upon submission of complete and verifiable documentation demonstrating compliance with the immunization requirements.

DISCLAIMER: The above are subject to change in accordance with the requirements of the Massachusetts Department of Public Health and/or the Massachusetts Board of Registration in Nursing.
